We protect our Topos.

When you buy a Topos from coronn.com it is a copyright protected product you receive. On the right side of this page you can read the first article from the "Act of Copyright".

In this PDF document that you have received you will find, under "Document summary", a copyright code that is personal for your copy of the document. That means, we are able to track the original buyer if we should find a copy that has been distributed to other people.

You have paid for your copy, don't send a copy to a friend. Of course, if you have printed out a copy you and your friends at the crag can use the copy, as with a printed book.

This page might don't concern you. You maybe think that this is obvious. That's good, just drop the page.

The reason that we need this page and this information in the Topos is because we occasionally in the past has been forced to take legal action when our Topos has been distributed for free at other web sites, and when we find copies that have been distributed from friends.

If you find illegal copies on the net, in a shop or anywhere else, please inform us.

1. a fictional or descriptive representation in writing or speech,
2. a computer program,
3. a musical or dramatic work,
4. a cinematographic work,

The Mediterranean Alps offers many beautiful rock climbing spots, some of them on a altitude that makes them very nice also during the hot summer, July and August. Very close to the road from Ventimiglia to Torino you find the crags presented in this coronn.com Topos. Together they offer 1300 routes of which Monte Bracco with outlying areas stands for half of these routes.

Andonno is still a genuine small Italian village almost without tourism just 1,5 hours from Finale, less than 2 hours from Nice airport or 1,5 hour from Torino. The crag offers 220 sport climbing routes in various grades and in the Mountains 10 km further up in the park (Parco Naturale Alpi Marittime) 50 boulder problems.

The small rock climbing area **Arimonda** in France offers a nice view over the French / Italian mountains. This is a small crag that is offering superb hard rock climbing in France. 38 rock climbing routes.

Bernard Gobbi is another small crag, not the best view, neither a beautiful spot, but if you are heading for Mercantour you could try the crag. 18 routes.

Breil sur Roya is a small beautiful village with quite a lot of tourists during weekends. This is a small crag without anything extra. 19 rock climbing routes.

Camoglieres is a very beautiful village and by the crag you will find a quiet and peaceful environment. The small crag offers 20 quite nice climbing routes and the place is worth visiting.

Colle di Tenda, on an altitude of 1900 m. above sea-level offers mostly hard limestone climbing with a splendid view over the Mediterranean Alps. 13 routes.

La Brigue isn't just climbing; it's a place that you perhaps will unexpectedly fall in love with at first sight. The area offers nice climbing but also a picturesque village with several historic monuments. 100 routes on 4 crags.

Le Barricate is a crag in the valley Stura. The crag offers nice slab climbing, though the approach is a little bit complicated. 47 routes.

Monte Bracco is one of the major climbing areas in this part of Italy, but during the summer the locals choose to go climbing in the shadow, or at a high altitude. Sited near Monte Viso (3841 m.) in Valle Po the area offers a beautiful nature, excellent rock climbing and not many tourists. 632 routes on several crags.

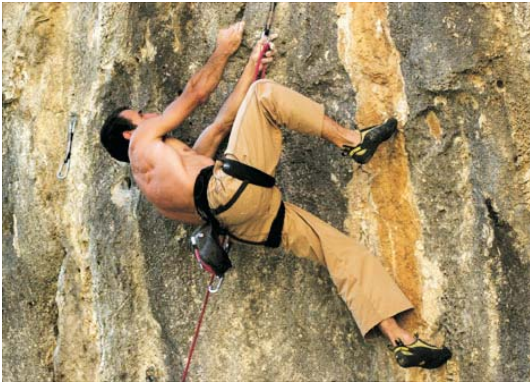

The Rock climbing area **Vernante/Fulchi**, located near the French border in the Maritime Alps offers good climbing in various grades. 140 routes.

coronn.com also publish Topos that covers the area **Finale Ligure** and the area surrounding **Nice/Monaco** (includes **Corsica** and **Verdon**). Buy them at www.coronn.com.

At the sketch itself, there is sometimes links to a detailed part of the crag or to the continuing part of the crag.

You can also use the Bookmarks, hidden in a vertical menu on the left side. From here you can navigate directly to chosen area or to the crag you want to see. You can also use the Search function (has a binoculars as a symbol), write the name of the area, the crag or even the route and the program will find it for you.

In some cases the links in coronn.com Topos leads you on the Internet to web sites where you can get more information.

Colle di Tenda, Italy/France

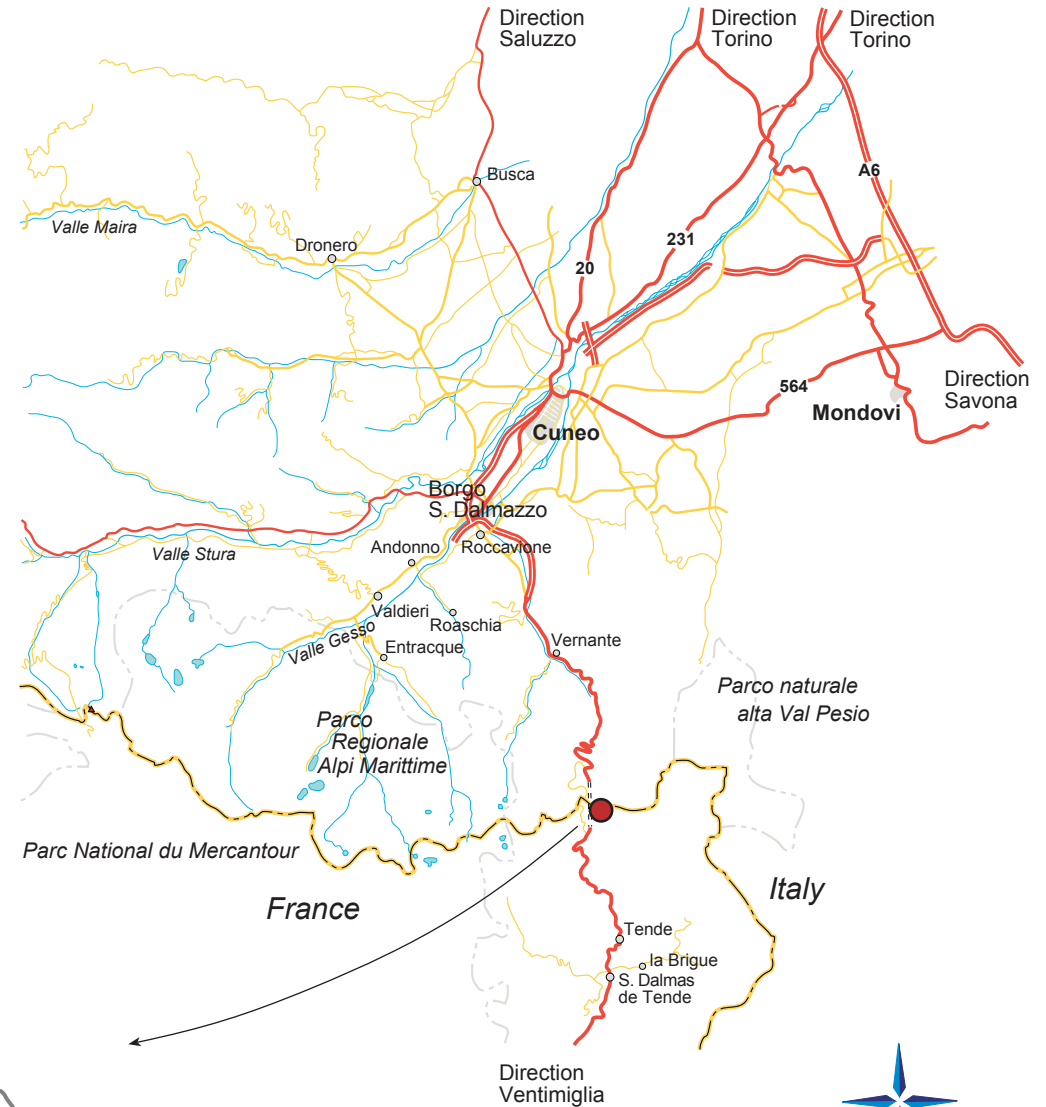

How to find the crag:

At the border France - Italy, on an altitude just under 2000, you will find Colle di Tenda. The views are extraordinary beautiful, and the crag, facing South, offers nice rock climbing.
To get there; From Italy, drive trough the ski resort Limone Piemonte and continue to the tunnel Italy/France. Just before the tunnel, approximately 200 meters, turn right in the direction of Limone 1400. Pass this ski resort and continue on the winding road up to Colle di Tenda. Just after the bar, where the road splits in a Y, hold left and continue about 1 km. Park and follow the track to the crag. Approach about 5 minutes.

From France; Pass Tende and continue up to the tunnel. Just before the tunnel, approximately 200 meters, turn left and follow a small and terrifying road up to the pass. Continue down to the Bar and follow the description above.

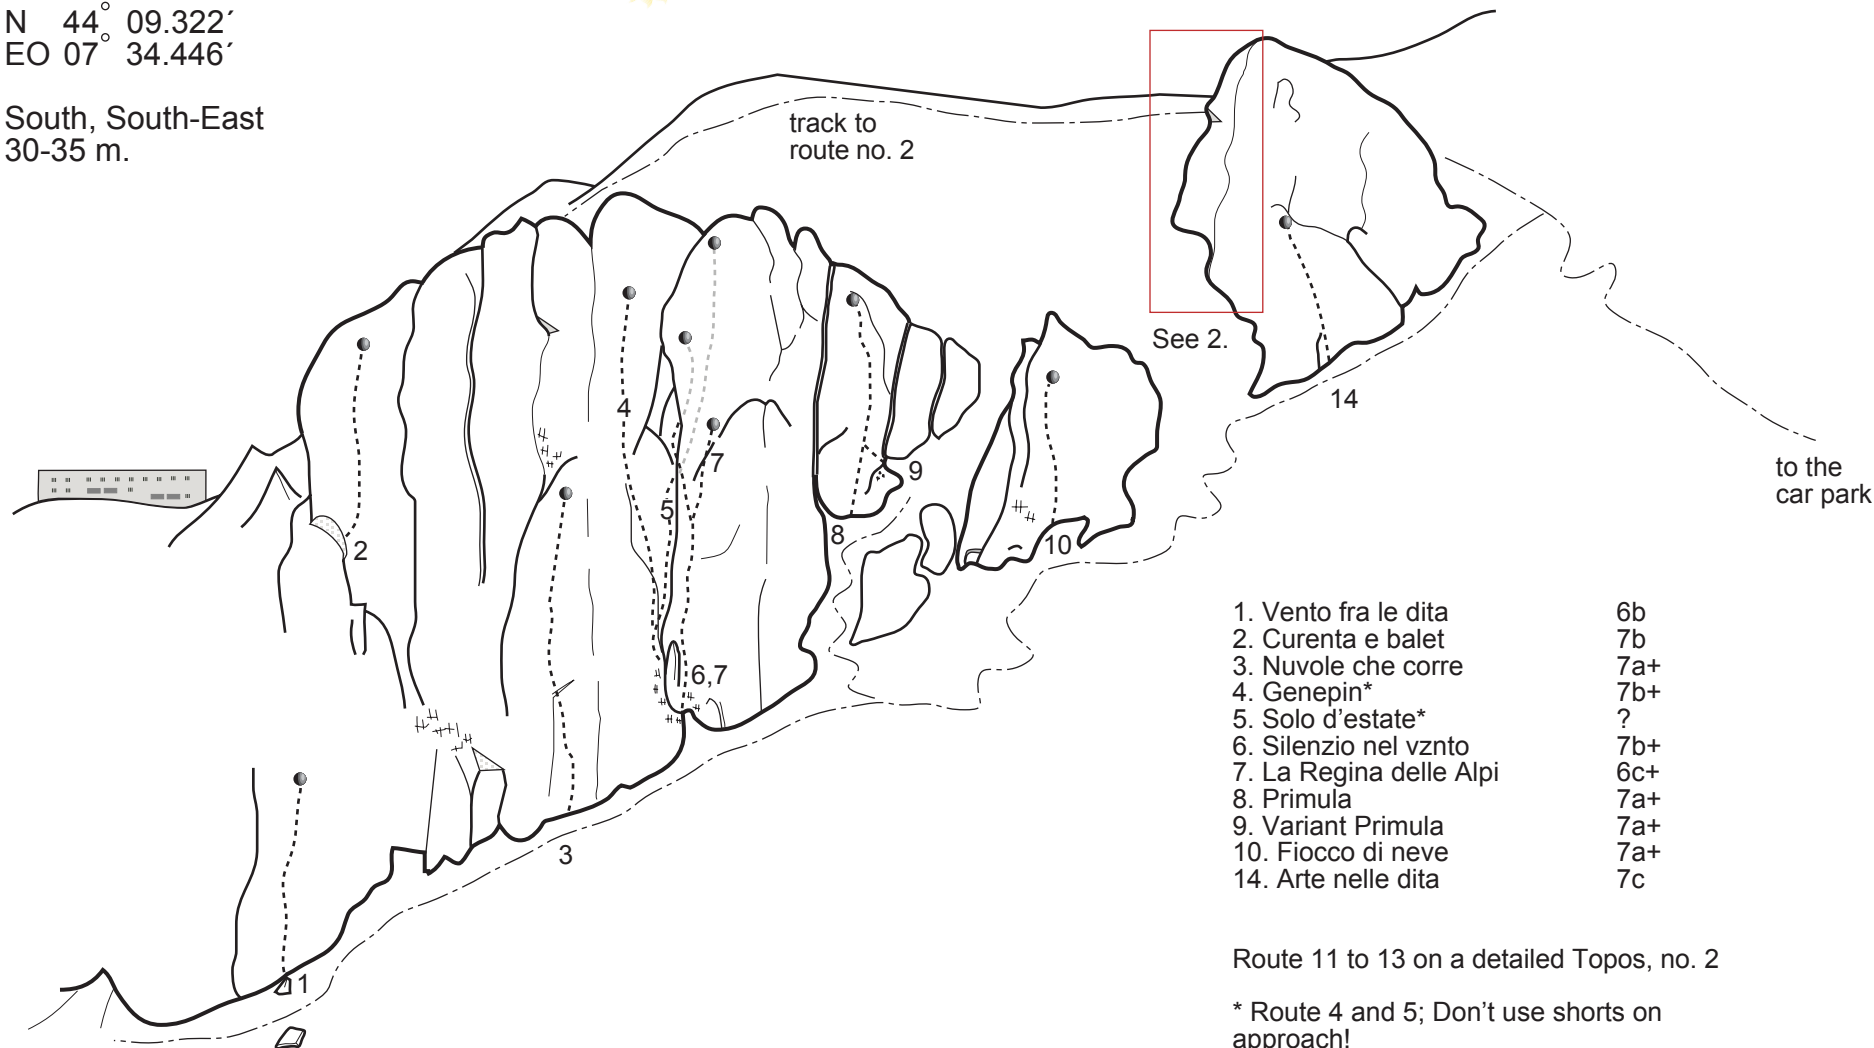

It is also possible to park by the Fort and take a short walk from there.

Road map, Palestra degli istruttori

At the road through the "Valle Stura" the road pass the small village Sambuco. The village is well worth visiting, don't miss the Pub at the "Piazza".

Keymap, Palestra degli istruttori

How to find the crags;

Drive through the tunnel a couple of kilometres after the village Pontebernardo, park to the left where it ends or to the right at a lay-by after the bridge. Where the bridge ends (in the direction of Argentera) you will find a wooden signpost, "Palestra di roccia", follow the small track, marked Blue, up to a stone ruin (part of a cannon hole). Scramble slightly to the right and try to find a track that leads left, soon you will find a chain.

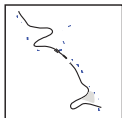

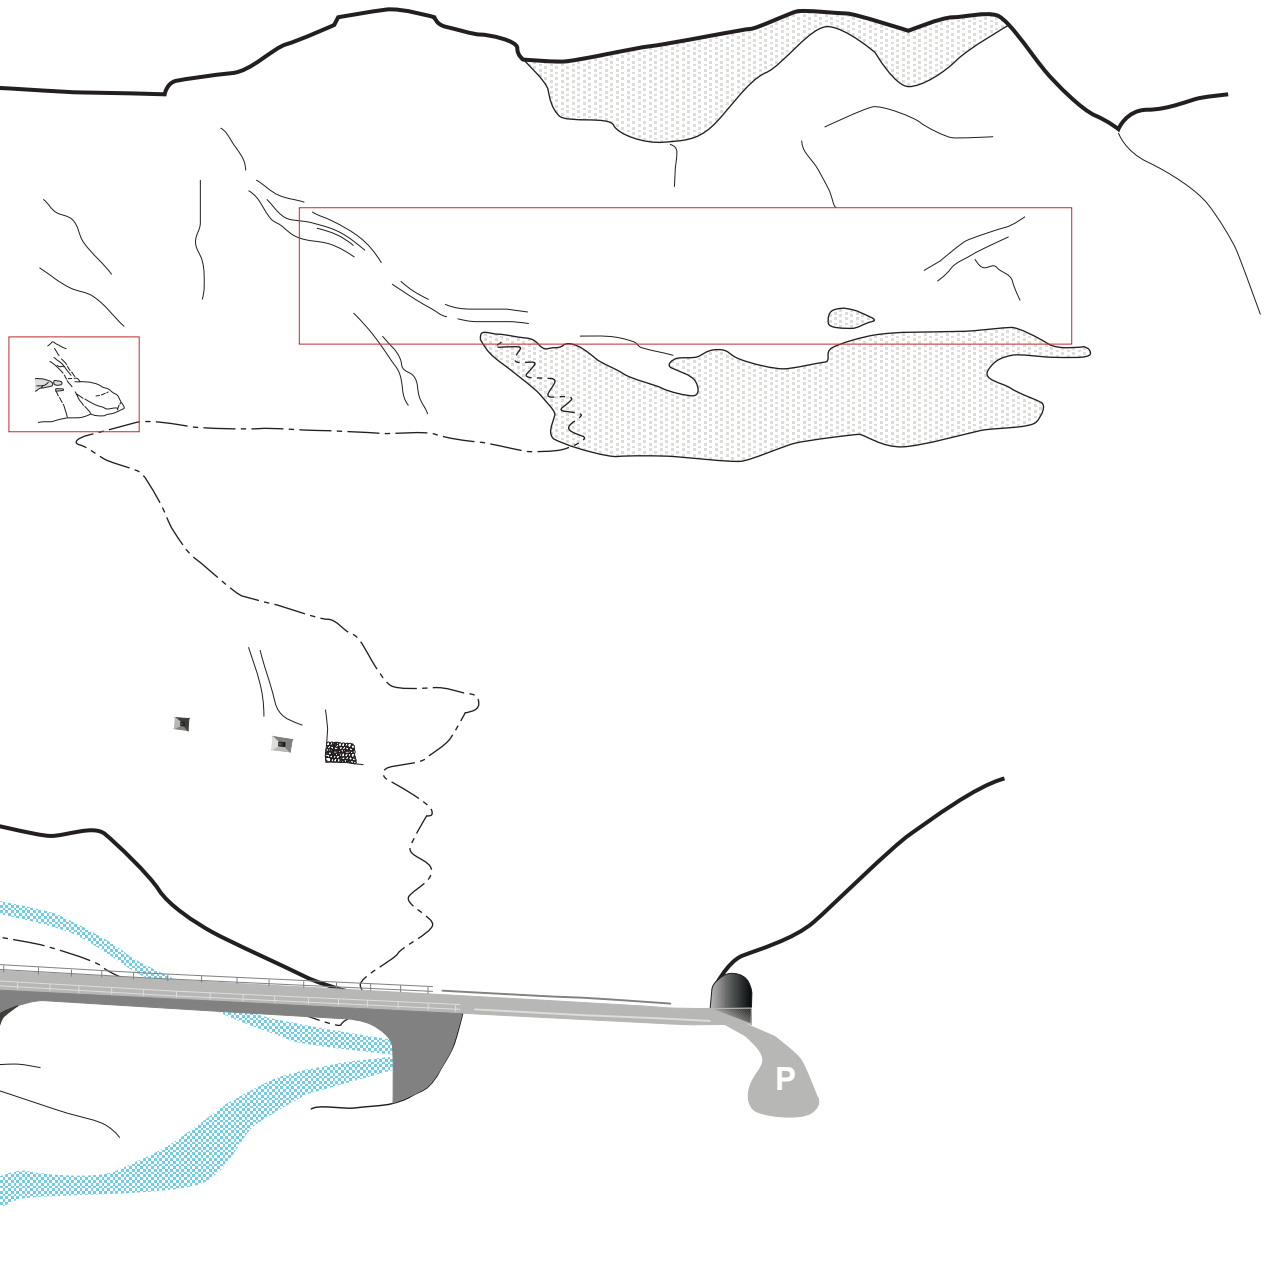

Continue on a track that now is more distinct, first you reach "Paretino Grigio".

On the track to "Palestra degli istruttori" you will find three more routes, no. 6 and 7 leads to "Palestra degli istruttori".

Access time, 15-20 minutes.

By the road you will find a nice pick-nic area near the stream, and keep up the look-out, each time we visit the area we were lucky enough to see eagle.

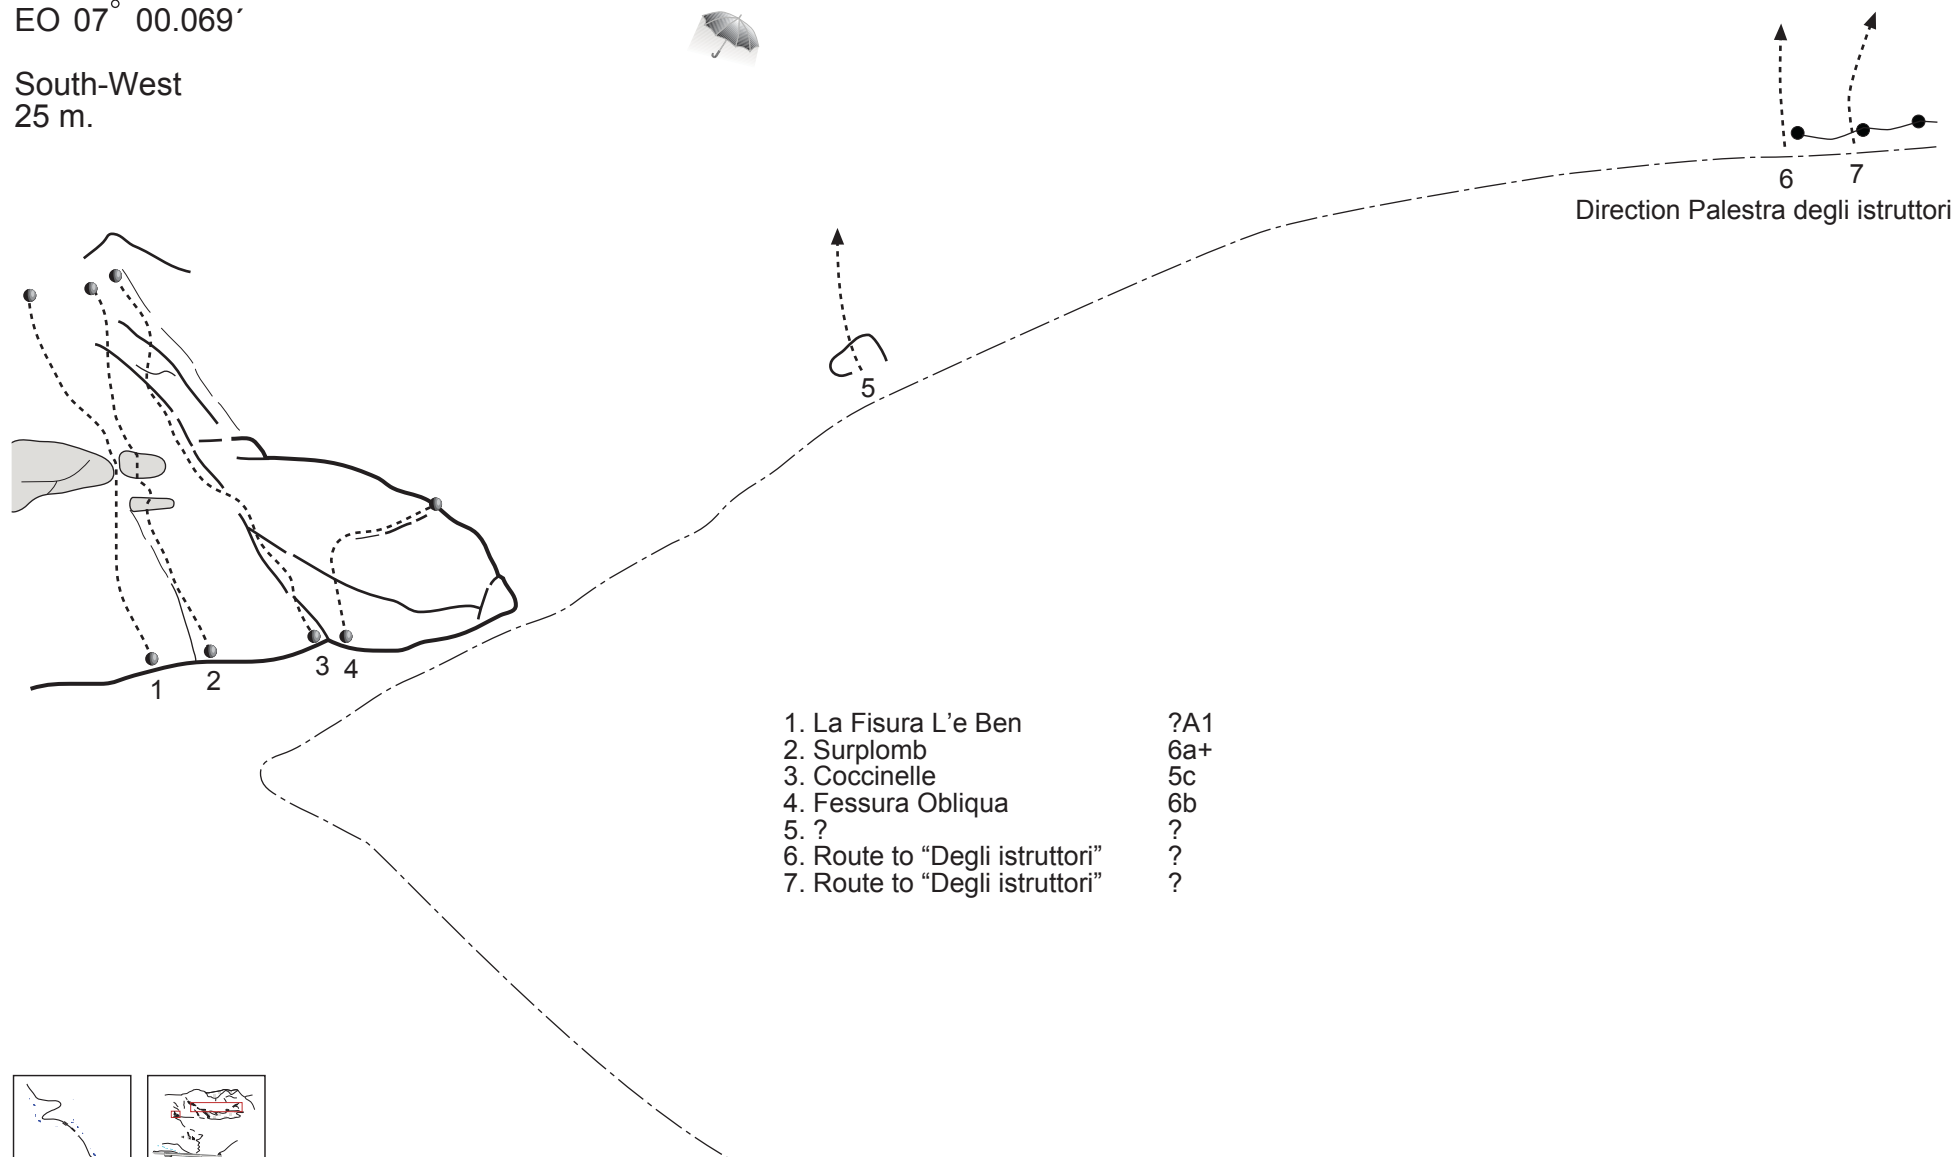

At an altitude 1400+ this is a nice crag during warm days.

How to find the crag:

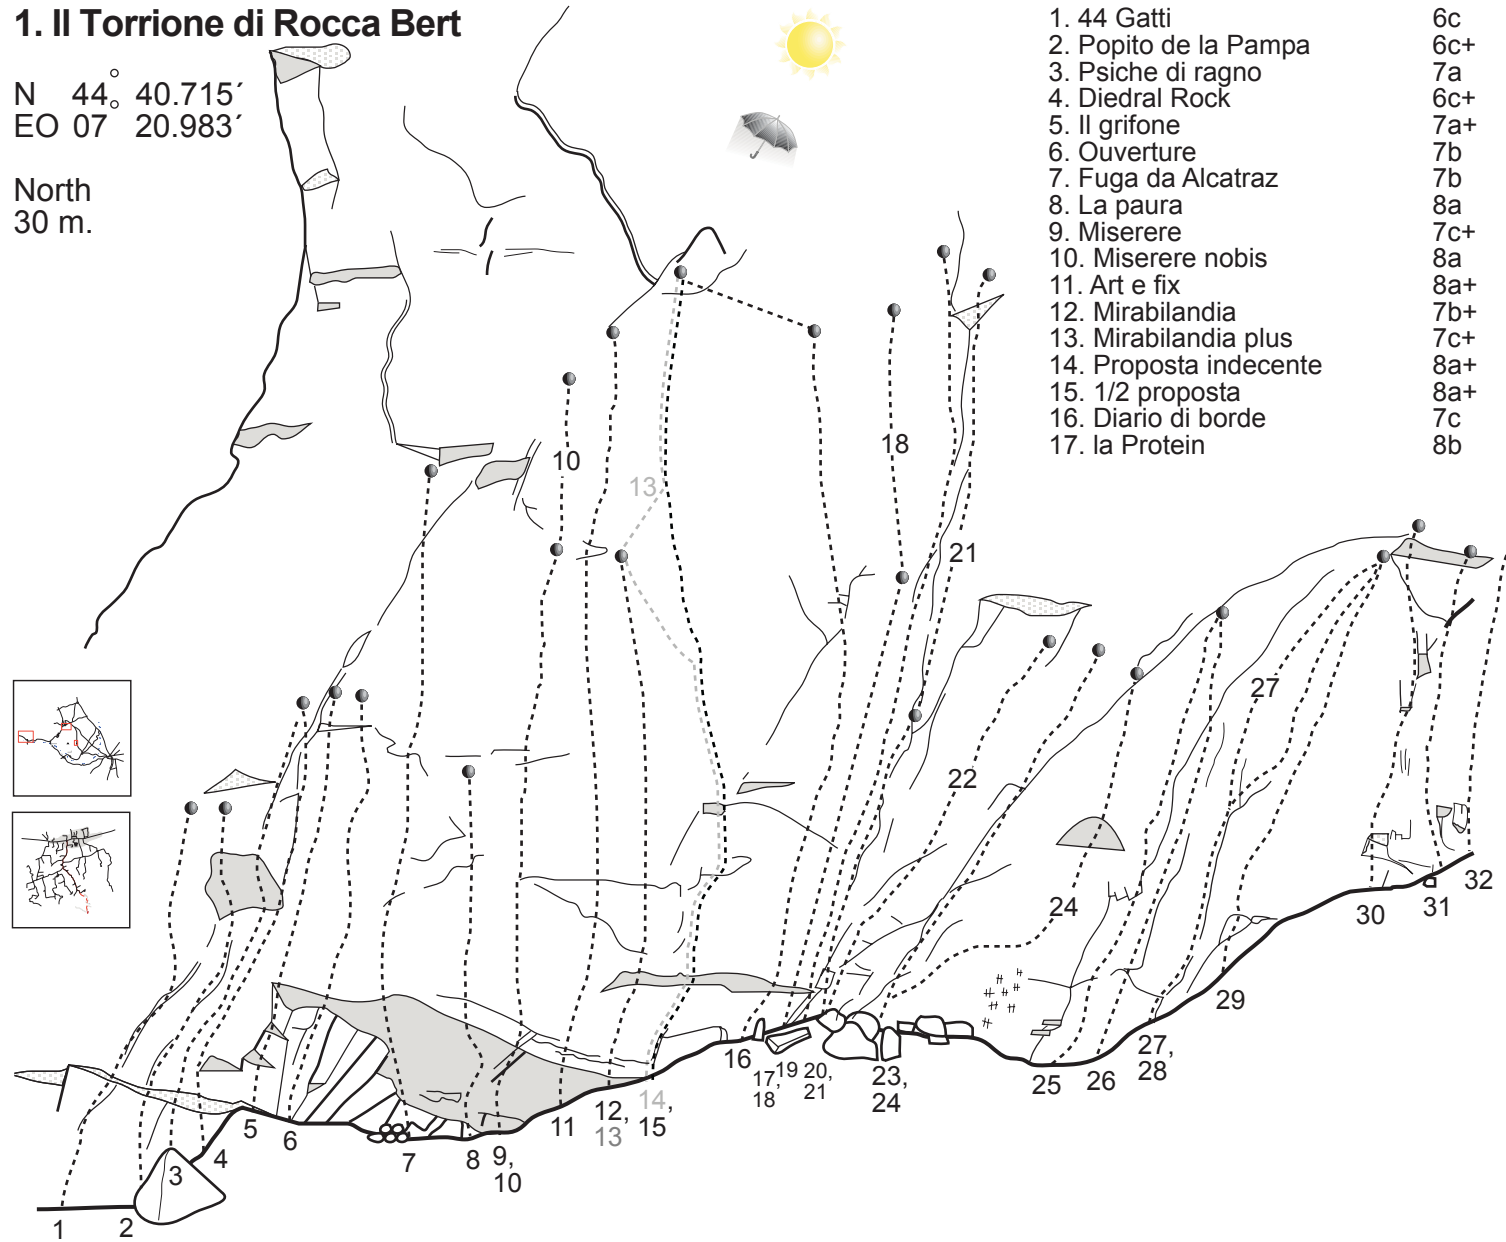

From Saluzzo, drive in the direction of Valle Po. In the village Revello, drive in the direction of Envie. Continue through Envie in the direction of Barge. Drive through Barge to the outskirts, turn left just before you leave the village. Turn right on to Via S. Giuliano with the signpost "località CAPOLOIRA", continue until you reach the second signpost where it stands "B.U.s.n.c. Boaglio Utensili" in a cross where the road gets gravelled.
